# FINALLY ... EASY-TO-USE TECHNOLOGY

CUSTOMISED CONTROLLERS – IRRIGATION AND ASSET MANAGEMENT

## PARTNERING WITH TECHNOLOGY ... CUSTOMISED

### DESCRIPTION

The RAINMAN Mp Series are feature rich, "state of the art" irrigation and asset management Controllers, from industrial irrigation through to environmental asset management. Many of the features have been developed through client requests. The ability to customise sets RAINMAN apart in the industry. Each system is designed to meet your site specifics ... now and into the future.

### BENEFITS

- **Easy to use + operate**
- **Manage remotely**  
Alarms + system alerts – SMS, email
- **Set and forget**  
Keep your site operational 24/7
- **Future proof your assets**  
Easy expansion – grows with you

### FEATURES

- Remote management + programming – SCADA PC
- Preset programming schedules
- User friendly to operate and customise
- Real-time sensor monitoring – protect pumps + pipes
- Station skip to keep irrigation going
- Low installation + maintenance costs
- Multi-level password secured access to Controller
- Quickly view system status + sensor reading
- Recent alarm list
- Direct access keypad
- High readability display in glare + shadows
- Inputs optically isolated for harsh environments
- Environmental monitoring options
- Asset protection + management
- Dual system – control irrigation + other assets
- Pump control
- Heat/frost/wind protection
- Report failed communications
- Display total irrigation hours + volumes
- Fail safe "shut off"

### TYPICAL APPLICATIONS:
