DATA VIEWING PORTAL

A COMPLETE ENVIRONMENTAL MONITORING SOLUTION

AQUAMONIX
Measure. Monitor. Master.

OVERVIEW

Going beyond data collection, storage and presentation, the ENVAULT system puts the control of your site directly at your finger tips!

Aquamonix has a custom data management solution for measurement, reporting, control and presentation of data for any monitoring application.

Data can be viewed in a range of formats and time periods 24/7 direct through the secure web page.

PRODUCT FEATURES

- Configuration of site specific control parameters
- Control of alarms thresholds sent via Email or SMS
- Google map interface
- Custom mimics
- Scalable data sets, interactive trends and charts
- Cost effective subscription options
- 3 year parts and labour warranty
