iC Level PSSO SLIM Series Level Transmitters

The iC Level PSSO SLIM is a rugged level transmitter featuring high accuracy, compact structure and long term stability.

With a 19mm slim line stainless steel construction, the iC Level PSSO SLIM has inbuilt lighting protection and is pre-corded with resistant PUR Cable. It is ideal for use in wastewater treatment, water supply and deep well level measurement applications. This transmitter is a reliable and cost effective choice.

The iC Level PSSO SLIM is available in a gauged format in either Metric or US Standard units.
